II. GENERAL INFORMATION

The Bristol County Retirement System has undergone extensive studies by both its actuary and its consultant (Segal Marco Advisors) to determine the status and the direction the fund must take in order to best serve the current and future needs of its members. Based on these studies, a target asset allocation and investment goals have been determined. The Bristol County Retirement System utilizes one open-end global diversified infrastructure manager currently. This search is being conducted per M.G.L Ch. 32, which requires the System to re-evaluate its existing manager(s) on a periodic basis. The Board is looking to hear from open-end infrastructure managers that will offer proper diversification for the portfolio in combination with other managers utilized by the System.

The Board is utilizing a Request for Proposal process. The Chief Procurement Officer is Roxanne Donovan, Executive Director. The Board will also use the services of Segal Marco Advisors as its search consultant on this project.

The manager will be expected to meet with the Board at regular intervals and to report to the Board at least quarterly on the performance of the portfolio. The manager will be expected to invest in accordance with the goals and objectives of the Board and within the tolerance for risk established therein.

Should the respondent ultimately be selected to manage assets on behalf of the Board, under the requirements of M.G.L.
